## 1. Architect: Alternative Careers

You may find that your international training and experience as an architect are not immediately accepted in B.C.

The scientific and mathematical skills you have already acquired, along with your artistic talent and communication skills, can be used in alternative careers. You may wish to investigate certification as either an Applied Science Technologist (AScT) or Certified Technician (CTech), or Provisional Member under the disciplines of 'Building-Architecture'. You can also consider alternative careers in construction.

### **Architectural Technologist / Technician (NOC 2251)**

You provide technical assistance to professional architects and civil design engineers in conducting research, preparing drawings, architectural models, specifications and contracts, and cost estimate. You also ensure designs meet provincial building code regulations and supervise construction projects.

#### **Requirements:**

- Two to three year diploma program for technologists or one to two year program for technicians
- Certification with *Applied Science Technologists & Technicians of British Columbia (ASTTBC)* may be required
- Supervised work experience, usually two years, is required before certification

**Certification:**

- Applied Science Technologists & Technicians of British Columbia (ASTTBC)  
[www.asttbc.org/](http://www.asttbc.org/)
  - ASTTBC Provisional Membership for Internationally Trained Professionals:  
[www.asttbc.org/registration/itp/](http://www.asttbc.org/registration/itp/)
  - Registration Requirements:  
[www.asttbc.org/registration/technologists/how\\_to\\_apply.php](http://www.asttbc.org/registration/technologists/how_to_apply.php)
- Internationally Trained Professionals: [www.itpbc.com/](http://www.itpbc.com/)
- Free online self-assessment of your academic qualifications and working experience provided by Technology Registrations Canada (TRC)  
<https://www.technologyregistrationscanada.ca/content/application-about>

**Skills:**

- creativity, persistence, and an eye for detail
- ability to visualize buildings in three dimensions and then reproduce them in two dimensions.
- strong math and computer skills
- communication skills and ability to work in a team environment

**Wages:** median hourly wage \$28.88 per hour

Source: WorkBC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2251>

### **Cost Estimator / Construction Estimator (NOC 2234)**

You calculate construction project costs, and how long the project will take to complete. You review building drawings and specifications, visit construction sites, and research current material prices.

#### **Requirements:**

Although a diploma in civil or construction engineering is usually required, some positions may accept construction experience

#### **Skills:**

- strong math, organization, analytical, writing and communication skills
- computer skills are a requirement for this position due to the use of estimating software and document management programs
- interest in planning, decision making, problem solving, working with people, and the financial aspect of construction

**Wages:** median hourly wage \$31.25 per hour

Source: WorkBC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2234>

### **Construction Inspector (NOC 2264)**

You inspect and examine buildings, bridges, highways and construction sites to ensure that specifications, building codes and safety regulations are observed

#### **Requirements:**

Most construction inspectors hold post secondary education in construction, civil engineering or architectural technology. However, you may also qualify if you have several years of experience as a qualified tradesperson in a construction trade such as plumbing, carpentry or electrical.

**Skills:**

- knowledge of construction techniques, building codes and standards
- well organized and analytical; good mathematical skills
- ability to communicate information clearly and precisely

**Wages:** median hourly wage \$36.00 per hour

Source: WorkBC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2264>

**Construction Manager (NOC 0711)**

You organize, direct and evaluate the activities of a construction company or a construction department. You plan and oversee the building of all kinds of structures, including skyscrapers, houses, roads, and bridges.

**Requirements:**

- a university degree in civil engineering or a college diploma in construction technology is usually required;
- master's degree in project management may be required
- several years of experience in the construction industry, including experience as a construction supervisor, are usually required
- extensive experience in the construction industry may substitute for post-secondary education requirements
- construction trade certification may be required by some employers

**Skills:**

- ability to solve problems quickly and efficiently
- thorough, detail-oriented, highly organized
- good oral and written communication skills needed to effectively communicate with engineers, architects, tradespeople, clients, and suppliers

**Wages:** median hourly wage \$39.00 per hour

## 2. Employment Outlook

### ***Architectural Technologists and Technicians (NOC 2251)***

The demand for architectural technologists and technicians is expected to continue to grow over the next few years. The non-residential construction, new housing construction and renovation projects, and investments in major resource and infrastructure projects in northern BC are the biggest contributors to job creation.

#### ***Job Opening Outlook: Architectural Technologists and Technicians***

Occupation Outlook for B.C.:	
% of job openings from replacement	55%
% of job openings from expansion	45%
Average annual growth rate of employment (2014-2024)	2.3%
Expected cumulative job openings (2014-2024)	590

Source: Work BC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2251>

### ***Construction/Cost Estimators (NOC 2234)***

Industry reports there is a shortage of qualified estimators. In particular, smaller companies need highly trained estimators who can also serve as project managers or schedulers.

#### ***Job Opening Outlook: Construction / Cost Estimator***

Occupation Outlook for B.C.:	
% of job openings from replacement	73%
% of job openings from expansion	27%
Average annual growth rate of employment (2014-2024)	1.0%
Expected cumulative job openings (2014-2024)	940

Source: Work BC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2234>

### ***Construction Inspectors (NOC 2264)***

Growth in construction activities supports demand for construction inspection services by both local governments and private buyers. Building inspection services for prospective home buyers is also growing source of employment.

#### ***Job Opening Outlook: Construction Inspectors***

Occupation Outlook for B.C.:	
% of job openings from replacement	<b>72%</b>
% of job openings from expansion	<b>28%</b>
Average annual growth rate of employment (2014-2024)	<b>1.3%</b>
Expected cumulative job openings (2014-2024)	<b>1,130</b>

Source: Work BC <https://www.workbc.ca/Job-Seekers/Career-Profiles/2264>

### ***Construction Managers (NOC 0711)***

The demand for workers in B.C.'s construction industry will fluctuate over the next decade depending on the region and sector, but the overall trend is toward near-record levels of employment. Construction managers work in all construction sectors: New Home Building and Renovation, Industrial, Institutional and Commercial, and Civil Engineering.

#### ***Job Opening Outlook: Construction Managers***

Occupation Outlook for B.C.:	
% of job openings from replacement	<b>78%</b>
% of job openings from expansion	<b>22%</b>
Average annual growth rate of employment (2014-2024)	<b>1.0%</b>
Expected cumulative job openings (2014-2024)	<b>7,240</b>

Source: Work BC <https://www.workbc.ca/Job-Seekers/Career-Profiles/0711>

### 3. Retraining

You may want to consider upgrading your skills to increase your employment options in this field. The following courses may improve your current skill set:

**Public Works Association of B.C. (PWABC)** provides a variety of programs

<http://www.pwabc.ca/events/education-programs/>

**BCIT School of Construction and the Environment**

<http://www.bcit.ca/construction/>

**Canadian Construction Association Gold Seal Certification**

<http://www.goldsealcertification.com/>

### 4. Searching for Jobs

**BC Construction Job Store**

[www.bcconstructionjobstores.com/](http://www.bcconstructionjobstores.com/)

**Neuvoo**

<http://neuvoo.ca/en>

**Construction Job Centre**

[www.constructionjobcentre.ca/](http://www.constructionjobcentre.ca/)

**Skilled Workers.com**

[www.skilledworkers.com/](http://www.skilledworkers.com/)

**Eluta.ca**

[www.eluta.ca](http://www.eluta.ca)

**T-Net British Columbia: BC**

**Technology Job Search**

[www.bctechnology.com/](http://www.bctechnology.com/)

**Indeed.ca**

[www.indeed.ca](http://www.indeed.ca)

**TechJobs.ca**

[www.techjobs.ca/](http://www.techjobs.ca/)

**MyJobSite.ca**

[www.myjobsite.ca/](http://www.myjobsite.ca/)

## **5. Volunteering in the Field**

Volunteering can help you to explore a new career and learn more about architecture and technical work in B.C. You will meet new people and build a network of contacts that may lead to information on job openings and an inside connection at a potential employer.

### **Go Volunteer**
